FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

RM - \_\_\_\_\_

To: Chief, Audio Division  
Media Bureau

**PETITION FOR RULE MAKING**

Clear Channel Broadcasting Licenses, Inc. ("Clear Channel"), licensee of Station WDDD-FM, Marion, Illinois ("Petitioner"), by its counsel, hereby requests that the Commission amend the FM Table of Allotments to delete Channel 297B at Marion and reallocate the channel to Johnston City, Illinois. If the Petition is granted, Petitioner will file an application to modify the license of WDDD-FM to specify operation on Channel 297B at Johnston City. In support hereof, Petitioner states as follows:

1. As demonstrated in the Engineering Exhibit, Channel 297B can be allotted to Johnston City, Illinois at the current WDDD-FM transmitter coordinates of 37-45-15 North Latitude, 88-56-05 West Longitude consistent with Section 73.207 of the Commission's Rules. See Figure 1. A 70 dBu signal can be provided to Johnston City from the current site. See Figure 2. No change in facilities of WDDD-FM will be necessary in order to implement this change in community of license.

2. The proposed change in community of license of WDDD-FM from Marion to Johnston City satisfies the prerequisites set forth in *Amendment of the Commission's Rules Regarding Modification of FM and TV Authorizations to Specify a New Community of License*, 4

FCC Rcd 3870 (1989), *recon.. granted in part*, 5 FCC Rcd 7094 (1990) ("Community of License"). First, because no change in facilities is requested, the proposed use of Channel 297B at Johnston City is mutually exclusive with its current use at Marion. Second, the Johnston City proposal is preferred under the Commission's priorities, since Johnston may be entitled to a first local service preference (Priority 3), while Marion will retain service from Stations WAWJ(FM) and WGGH(AM) (Priority 4). *See Revision of FM Assignment Policies and Procedures*, 90 FCC 2d 88 (1982). Neither Marion nor Johnston City is located in an Urbanized Area and the current 70 dBu contour does not reach any Urbanized Area.

3. Johnston City is a community deserving of local service. Johnston City is listed in the U.S. Census 2000 with a population of 3,557. The U.S. Post Office associates zip code 62951 with Johnston City and operates the Main Post Office at 205 West Broadway Boulevard. *See Exhibit 1.* Johnston City's government functions independently of any other governmental units. According to the City Clerk, Jean Hatfield, Johnston City has an elected mayor and eight council members who serve four year terms. The city government has a city clerk, city treasurer, city attorney, city engineer, parks director, waste treatment department, water and sewer department and water treatment department. Among the services provided by the city government are local zoning, trash pickup, water, sewage, street maintenance, and parks and recreation. Police protection is provided the Johnston City Police Department. The Johnston City Fire Department is composed of 15 volunteers, four full-time employees and three part-time employees offering fire, rescue, EMS and other services to the citizens of Johnston City. Johnston City was incorporated on May 13, 1905. *See Exhibit 1.*

4. A few businesses identify with the community by using "Johnston" in their name, for example: Johnston City Citgo, Johnston City Shell, Johnston City Sportsware and the Johnston City Chiropractic Center. Johnston City has a wide variety of businesses. *See Exhibit 1.* The Johnston

City Chamber of Commerce promotes local economic growth and development. Medical services for the citizens of Johnston City are provided by the Johnston City Medical Clinic. *See Exhibit 1.* Johnston City is part of Johnston City Community Unit School District No. The school district is composed of three K through 5 schools, one middle school and one high school providing public education for children in Johnston City. The schools located within Johnston City include Johnston City Elementary School and Johnston City High School. The city operates the Johnston City Public Library and is open six days a week. *See Exhibit 1.* According to the Ms. Hatfield, among the events that are held in Johnston City include the Spring and Fall Festivals and the Civil War Re-Enactment Day. Johnston City is home to several churches such Church of God of Prophecy, Johnston City Church of God, St. Paul's Catholic Church, First United Methodist Church and First Baptist Church. *See Exhibit 1.*

5. Johnston City is currently served by Station WDDD(AM). There is also an unbuilt expanded band station (WHTE) which has applied to change community of license to Berwyn, Illinois(BMAP-20010719AAN). Both stations are licensed to Clear Channel. The merits of that application are the subject of a Joint Petition to Deny filed on May 31, 2002 by several licensees with stations in the Chicago, Illinois area. These licensees have argued that should the application be granted to relocate Station WHTE to Berwyn and should Clear Channel decide thereafter to turn in the license for Station WDDD(AM) within five years of the date that WHTE is licensed, then Johnston City will be left without local service. Based on the expiration of WHTE's current authorization, the five year period will end sometime in 2008. Clear Channel is willing and intends by the filing of this petition to replace the possible removal of local service from Johnston City by relicensing Station WDDD-FM to maintain the community's local service. Accordingly, Clear Channel's relicense on a first local service preference in this petition is dependent on the action to

be taken on the pending application of WHITE to relocate from Johnston City to Berwyn as discussed. The two filings should be coordinated so that the determination of whether Johnston City will be replacing its local radio station by this petition is consistent.

6. The allotment of Channel 297B to Johnston City is in the public interest based on a finding that it will maintain its first local service. Marion will continue to have two local services. The Commission should promptly issue a Notice of Proposed Rule Making as described herein.

Respectfully submitted,

CLEAR CHANNEL BROADCASTING LICENSES, INC.

TECHNICAL EXHIBIT

PETITION FOR RULE MAKING  
TO AMEND THE FM TABLE OF ALLOTMENTS

MARION, ILLINOIS  
JOHNSTON CITY, ILLINOIS

Technical Narrative

This technical narrative and accompanying Figures have been prepared on behalf of station WDDD-FM, Marion, Illinois, in support of a Petition for Rule Making to amend 47 C.F.R. Section 73.202(b) to reallocate channel 297B at Marion, Illinois to channel 297B at Johnston City, Illinois.

As the requested change is mutually exclusive with the channel's current allotment, Petitioner invokes the provisions of Section 1.420(i).

The following is a summary of the merits of this reallocation proposal:

- The community of Johnston City, Illinois (2000 Census population 3,557 persons), will continue to have local aural service via this proposal.
- The community of Marion, Illinois (2000 Census population 16,035 persons) will continue to have local aural service from two radio stations.
- The proposed channel 297B allotment site at Johnston City, Illinois satisfies the Commission's allocations spacing rules.<sup>1</sup>

---

<sup>1</sup> Proposed allotment coordinates are 37° 45' 15" North, 88° 56' 05" West. See this Exhibit under the heading "Compliance With FCC Rules" for details on allocations considerations with respect to this site. Also see *Figure 1* accompanying this Exhibit for the allocations spacing study.

- There is no 60 dbu gain or loss area associated with this proposal, as the present WDDD-FM facilities would be maintained as is.

*Table of Figures Accompanying this Exhibit*

Figure 1	Allocations Spacing Study
Figure 2	WDDD-FM Channel 297 Present and Proposed 60 and 70 dbu Coverage Contours and Service to Johnston City, Illinois

Proposed Change in the FM Table of Allotments

Marion is located in Williamson County, Illinois, and has a 2000 U.S. Census population of 16,035 persons. Under this proposal, Marion will continue to receive local aural radio service from the following stations:

- WAWJ (FM)
- WGGH (AM)

Johnston City, Illinois is also located in Williamson County, Illinois, and has a 2000 U.S. Census population of 3,557 persons. Johnston City is currently served by station WDDD (AM). This proposal would provide continued local aural service to the community of Johnston City, Illinois.

Accordingly, Petitioner requests modification of the FM allocation table as follows:

<u>City</u>	<u>Present</u>	<u>Proposed</u>
Marion, IL	297B	- <sup>2</sup>
Johnston City, IL	-	297B

Compliance With FCC Rules

The attached *Figure 1* is a tabulation of required separations pertinent to the use of channel 297B at Johnston City, Illinois. The reference site complies with the Commission's minimum distance separations contained in Section 73.207 of the FCC's rules to all existing, authorized and proposed stations and allotments, except for the existing channel 297 class B allotment at Marion, Illinois, for which this proposal is a mutually exclusive substitute.

Operation from the channel 297 reference site will provide the requisite city grade (70 dbu) signal to all of

---

<sup>2</sup> WAWJ (FM) is a non-commercial educational station on channel 211 and thus does not appear in the FM table of allotments. It will continue to provide service to Marion, as will AM station WGGH.

Johnston City.<sup>3</sup> Figure 2 is a map which was developed using the 2000 U.S. Census Topologically Integrated Geographic Encoding and Referencing (TIGER) Line files which depicts the city grade coverage (70 dbu) contours based on current and proposed facilities at the proposed allotment site. As shown, all (100%) of Johnston City is located within the 70 dBu City Grade contour. Johnston City is located 7.4 kilometers from the proposed WDDD-FM channel 297B allotment site.

#### Urbanized Area Considerations

The WDDD-FM 70 dbu contour currently encompasses no urbanized areas, nor will it under this proposal.

#### 60 dbu Gain and Loss Areas

There will be no 60 dbu Gain or Loss Areas, since, no change in technical facilities or parameters is proposed herein.

#### Coverage Contours

The FM predicted coverage contours provided with this Exhibit were calculated in accordance with the provisions of 47 C.F.R. Section 73.313, except that, in accordance with current FCC practice, uniform terrain was assumed in all directions.

#### Population and Area

The population within the FM primary service contour (1 mV/m) was calculated using a computer program that utilizes the 2000 U.S. Census database of "population centroids". The program adds the populations of those U.S. Census designated areas whose centroid lies within each service area.

#### Conclusion

---

<sup>3</sup> See Figure 2 herein.

Channel 297, Marion, Illinois and Johnston City, Illinois

Channel 297 can be reallocated from Marion, Illinois to Johnston City, Illinois, in compliance with all applicable Commission rules. The community of Johnston City, Illinois would continue to enjoy a local aural transmission service via this instant proposal, and the community of Marion, Illinois will continue to have local aural service. No service will be lost in any underserved area<sup>4</sup> and no new underserved areas will be created as a result of this proposal. Therefore, Petitioner requests the reallocation of channel 297B from Marion, Illinois to Johnston City, Illinois be granted accordingly.

Respectfully submitted,
